

Positioniereinheit PE 2/XP BG2, ESD, vertikale Prozesskraft 100 kN - Bosch Rexroth 3842242351

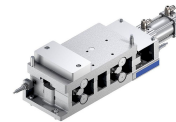

Item no. BRR-3842242351 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842242351

The PE 2/XP BG2 positioning unit locates workpiece pallets in processing stations with especially high vertical process forces, such as press-fit or riveting operations. It mounts in force cells for positive force introduction. ESD design for WT 2 workpiece pallets up to 30 kg.

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The PE 2/XP BG2 positioning unit locates workpiece pallets in processing stations where especially high vertical process forces occur, for example during press-fit or riveting work. It mounts in force cells and takes up the introduced forces directly. Size BG 2 suits workpiece pallets up to 320 x 240 mm.

- Positive force introduction in the force cell
- Repetition accuracy 0.05 mm
- ESD design
- Can be combined with WT 2 workpiece pallets
- Supplied fully assembled

Technical data

| Feature | Value |
|---------------------------------------|------------------------|
| Article number | 3842242351 |
| Size | BG 2 |
| ESD | yes |
| Permissible vertical process force | 100 kN |
| WT lift above transport level | approx. 3 mm |
| Repetition accuracy | 0.05 mm |
| Max. total weight of workpiece pallet | 30 kg |
| Workpiece pallet width | 240 mm |
| Length in direction of transport | 240 mm |
| Combinable with | WT 2 workpiece pallets |
| Delivery condition | fully assembled |
| Weight | 28.55 kg |
