DESCRIPTION

The SK2/B protective box is a cover housing for the lift-transverse units in the Bosch Rexroth TS 2plus transfer system. It encloses the moving components of the transverse station and is intended for machine builders and maintenance teams who need to protect the area against contamination and accidental contact.

- Housing in anodized aluminum combined with PA 66
- 240 x 320 mm format for the lift-transverse unit components
- Matched to the TS 2plus transfer system, transverse transport
