DESCRIPTION

The protective box SK2/B is a housing element for the lift transverse units in the cross conveyor of the Bosch Rexroth TS 2plus transfer system. In size 400 x 480 mm it encloses the functional components and keeps dust, chips and mechanical impact away.

- robust housing made of anodized aluminum combined with PA 66
- protects the components of the lift transverse unit against dirt and damage
- matched to the cross conveyor of the TS 2plus transfer system
