ESD safe

DESCRIPTION

The protective box SK2/B 640x480 is a cover and protection component for the lift transverse units in the cross transport section of the Bosch Rexroth TS 2plus transfer system. It encloses the moving and sensitive parts of the transverse unit and is intended for machine builders and the maintenance of assembly and transfer lines.

- Robust housing made of anodized aluminum and PA 66
- Protects the lift transverse unit from dirt and mechanical impact
- Suitable for the cross transport in the TS 2plus
