DESCRIPTION

The Bosch Rexroth collar nut M8 is a connecting element for building aluminum profile structures with slot 10. It is inserted into the profile slot and accepts M8 screw connections to fasten components and add-on elements. The ESD version dissipates electrostatic charges, making it suitable for areas with requirements for the protection of electrostatically sensitive components.

- M8 thread for common screw connections
- ESD capable for dissipation of static charge
- Made of galvanized steel for corrosion protection
- Packaging unit of 100 pieces
