DESCRIPTION

The protective box SK2 in size 320x160 is a cover for components of the lift-transverse units in the Bosch Rexroth TS 2plus transfer system. It encloses the mechanism in the cross-transport area and protects it against contamination and unintended access. Suited to system integrators and maintenance teams extending or replacing existing TS 2plus lines.

- Housing made of anodized aluminum and PA 66
- Defined size 320x160 for the lift-transverse unit
- Shields the mechanism from dirt and access
