DESCRIPTION

The protective box SK2 400x480 is a housing element for the lift-transverse units in the cross-transport section of the Bosch Rexroth TS 2plus transfer system. It covers the mechanical components of the transverse unit and protects them during workpiece transport. Suited to system integrators and maintenance teams building or servicing TS 2plus lines.

- Sturdy housing of anodized aluminum combined with PA 66
- Covers the components of the lift-transverse units
- Matched to the 400x480 size of the cross-transport
