DESCRIPTION

The GB-1710 ESD grab container is an open-front storage bin made of conductive ABS for presenting small parts and components at manual assembly workstations. It is designed for users in electrostatic protected areas (EPA) who handle sensitive electronic components.

- Conductive ABS with $R_{gp}/R_{pp} = 10^4 \dots 10^9 \Omega$ protects sensitive components against electrostatic discharge
- Open, angled front for fast picking and good visibility of the contents
- Usable volume of 3050 cm³ with a compact footprint
