

Wippe WI 2, ESD, Transportsteuerung TS 2plus, bQ=320 mm - Bosch Rexroth 3842348782

Item no. BRR-3842348782 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842348782

The WI 2 rocker controls workpiece pallet flow in the TS 2plus transfer system and mounts at the transition between a transverse and a main section. ESD-compliant design with a track width in the transverse conveyor of $bQ = 320$ mm. Fastening material for ST 2/... or BS 2/... sections included.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
ESD-Ausführung	TEC
Weight	0.1 kg
Zolltarifnummer	84313900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The WI 2 rocker is a component of the transport control in the Bosch Rexroth TS 2plus transfer system. It is fitted at the transition between a transverse and a main section and controls the flow of workpiece pallets. The ESD-compliant version suits areas with requirements for the protection of electrostatically sensitive components.

- ESD-compliant design
- Track width in the transverse conveyor $bQ = 320$ mm
- Monitoring range 350 mm
- Controls workpiece pallet flow at the transverse-to-main section transition

Technical data

ESD	yes
Dimension a	245 mm
Dimension b	155 mm
Dimension c	25 mm
Length I	400 mm
Length L	400 mm
Monitoring range	350 mm
Track width in the transverse conveyor bQ	320 mm
Workpiece pallet total weight mG	30 kg
Mass m	1.5 kg
Weight	1.036 kg

Scope of delivery: Including fastening material for installation on ST 2/... conveyor section or BS 2/... belt section.

Required accessory: M12 round sensor with rated switching distance SN = 4 mm for vertical installation, or SN = 8 mm for horizontal installation.

Notice: The max. total workpiece pallet weight applies when infeeding from a transverse section into a main section; for area monitoring, the max. system weight of 240 kg must not be exceeded. The min. workpiece pallet weight applies per rocker body.
