DESCRIPTION

The T-slot nut 8 M8 is used to fasten add-on parts in slot 8 of Bosch Rexroth aluminum profiles. It is inserted into the slot and held in position by the required spring, allowing connections to be made even retrofit and without open profile ends. Suitable for machine and equipment construction as well as fixtures.

- M8 thread for mounting bolts and add-on elements
- High groove retention of 6000 N for load-bearing connections
- Steel, galvanized - corrosion-protected and robust
