DESCRIPTION

The cross connector QV 1 is a component of the section units in the Bosch Rexroth TS 1 transfer system. It joins the section profiles transverse to the conveying direction, ensuring a stable and dimensionally accurate build-up in longitudinal transport. Designed for a workpiece pallet width of 80 mm.

- Polyamide PA 6 material - light and corrosion resistant
- For the transverse connection of section units
- Matched to the 80 mm workpiece pallet width in the TS 1
