

Gurtführungsprofil GP 1, L=2000 mm, ESD, PE-UHMW - Bosch Rexroth 3842521520

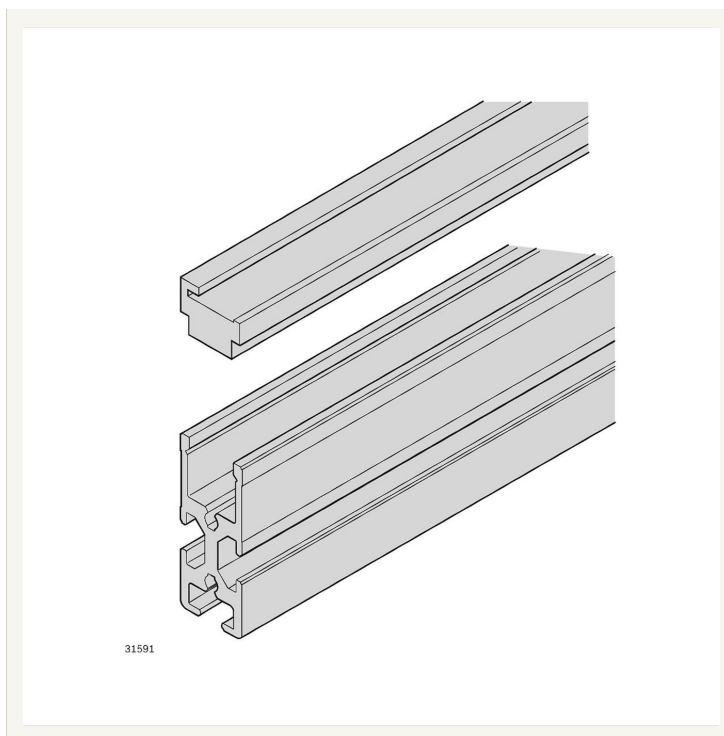

Item no. BRR-3842521520

Manufacturer Bosch Rexroth

Belt guide profile GP 1 for longitudinal transport in the TS 1 transfer system. The single rod made of anti-static PE-UHMW guides the belt along the section unit. Standard length 2000 mm, ESD-capable.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.42 kg
Zolltarifnummer	39169010

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The GP 1 belt guide profile is a component of the section units for longitudinal transport in the Bosch Rexroth TS 1 transfer system. It supports the transport belt and guides it along the section. Suitable for users building or maintaining existing TS 1 section assemblies.

- Anti-static PE-UHMW (ESD-capable) for areas with electrostatic discharge requirements
- Low-wear sliding properties for reliable belt guidance
- Supplied as a single rod in standard length 2000 mm

TECHNICAL DATA

Condition on delivery	Single rod in standard length
ESD	yes
Delivery unit	1
Length [L]	2000 mm
Material	PE-UHMW, anti-static
Weight	0.42 kg
