

Tastaturhalter für manuelle Arbeitsplätze - Bosch Rexroth 3842522305

Item no. BRR-3842522305**Manufacturer Bosch Rexroth**

The keyboard holder provides a dedicated resting position for the keyboard at a manual workstation and keeps the work surface clear. It is supplied as individual components and assembled on site. Suitable for integration into Bosch Rexroth workstation systems.

TECHNICAL DATA

Country of Manufacture	Austria
Weight	1.286 kg
Zolltarifnummer	94039910

DESCRIPTION

The keyboard holder adds a defined keyboard rest to manual workstations and production systems. It frees up the actual work surface and supports an ergonomic layout of the operating elements at assembly and inspection stations.

- Fixed resting position for the keyboard at the workstation
- Keeps the main work surface clear
- Supplied as individual components for on-site assembly
