DESCRIPTION

The 45x90 flanged plate seals the hollow chambers of 45x90 strut profiles (3-chamber), allowing the profile to double as a compressed-air line. It is intended for machine and assembly builders who want a profile to act as both load-bearing structure and air duct.

- Seals the profile ends so the hollow chambers can carry compressed air
- Compressed-air intake or discharge by replacing the screw plug with a pneumatic fitting
- Profile finishing: M12 thread cutting in the central holes
- Supplied with fastening material, screw plug and seal
