DESCRIPTION

The 20/3 cubic connector joins 20x20 aluminum profiles with profile slot 6 in up to three directions and forms the basis for frames, racks and machine structures. It is intended for design engineers and fitters in jig and equipment construction.

- Three outlets for spatial connections in a single component
- ESD-capable for use in electrostatically protected areas (EPA)
- Robust diecast aluminum with 23 Nm bending moment per connection
- Recommended accessories: countersunk screw S6x16 plus cover cap D12 (signal gray or black, PP)

TECHNICAL DATA
