ESD safe

DESCRIPTION

The Bosch Rexroth T-head bolt M6x16 connects add-on components to the aluminium profile system via profile slot 8. It is inserted into the slot, turned 90 degrees and secured with a nut. The ESD version is suitable for workstations with electrostatic discharge requirements.

- Fast assembly by inserting and a quarter turn in the slot
- ESD capable for electrostatically protected areas
- Groove retention up to 4000 N
- Galvanized steel for corrosion protection
