DESCRIPTION

The bolt D16 is a hardened steel component for workpiece pallets in the Bosch Rexroth TS 2plus transfer system. It acts as a wear-resistant positioning and connecting element and is intended for maintenance and assembly line builders who need an exact-fit original spare part.

- Hardened steel for high wear resistance and long service life
- Dimensionally accurate design for precise positioning on the pallet
- Original component of the TS 2plus transfer system

Technical data

Diameter [D] 16 mm
Dimension [a] 4.8 mm
Dimension [b] 24.3 mm
Material Steel, hardened

Weight 0.031 kg
Delivery unit 1 piece
