DESCRIPTION

The S6x16-T25 ESD central bolt from Bosch Rexroth joins slot 6 aluminium profiles through the central end-face bore. The self-forming thread cuts directly into the profile bore to create a firm screw connection without pre-machining. It is intended for fixture and machine building with ESD requirements.

- Self-forming thread for direct mounting in the profile end bore
- Torx 25 drive for secure torque transmission
- ESD-capable design for electrostatically protected areas
- Galvanized steel for corrosion protection
