DESCRIPTION

The Bosch Rexroth T-head bolt HS10-M8x30 creates positive-locking connections between components, add-on elements and aluminum profiles with profile slot 10. It is inserted into the slot and turned to lock against rotation, allowing fast assembly even where the slot end is not accessible. The ESD version suits workstations with requirements for electrostatic dissipation.

- Positive-locking fastening in profile slot 10
- High groove retention up to 18000 N for load-bearing joints
- Galvanized steel for corrosion protection
