

Profilverbinder PV10/40, L=180 mm, Nut 10, Stahl verzinkt - Bosch Rexroth 3842528746

Item no. BRR-3842528746

Manufacturer Bosch Rexroth

Profile connector for joining aluminum profiles with slot 10 end to end. The PV10/40 variant with a length of 180 mm ships complete with fastening material and creates a firm, releasable corner joint. It fastens through the profile slot, so no machining of the profile end is required.

TECHNICAL DATA

Weight	0.254 kg
Zolltarifnummer	73181900

STANDARDS & COMPLIANCE

ISO4017

DESCRIPTION

The PV10/40 profile connector joins aluminum profiles with slot 10 into a firm, releasable connection. It is intended for design engineers and assembly technicians in machine, jig and frame construction who need stable profile joints without machining the profile end.

- End-to-end connection of profiles with slot 10
- Supplied complete with fastening material (FS)
- Steel, galvanized - corrosion-protected and load-bearing
- Defined joint with a tightening torque of 25 Nm

TECHNICAL DATA

Profile slot	10
Length	180 mm
Material	Steel, galvanized
Material information	Fastening material: Steel, galvanized
Fastening material	4x hexagon screw ISO4017 M8x14, 4x lock washer S8
