STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The swivel-in T-slot nut is used to attach add-on components at any point of slot 8 in the Bosch Rexroth aluminium profile system. It is placed into the slot and turns crosswise automatically when the screw is tightened, so the profile end is not needed for retrofitting. Intended for assembly and equipment engineering with ESD requirements.

- Swivel-in design for mounting at any point of the slot, including retrofits
- ESD-capable for use in electrostatically protected areas
- Stainless spring holds the nut in position before tightening

Technical data

Attribute	Value
Profile slot	8
Thread size	M4

Attribute	Value
Swivel-in	yes
ESD	yes
Length l	16 mm
Dimension h	4.8 mm
Dimension h1	1 mm
Groove retention Fmax	2200 N
Material	Steel, galvanized
Spring	Spring steel, stainless
Packaging unit	100 pcs
Weight	0.005504 kg
