DESCRIPTION

This swivel-in T-slot nut connects add-on components to aluminum profiles with slot 10 and is especially suited to retrofitting on already assembled structures. After insertion it is turned 90 degrees into the slot, where it locks automatically. Intended for designers and assembly technicians in fixture and machine construction.

- Can be fitted later without dismantling the profile frame
- Self-locking spring keeps the nut in position
- ESD-capable for charge-dissipating applications
- High groove retention up to 18000 N
