STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The central bolt M12x30-T50 is used for end-face joining of aluminium profiles in the Bosch Rexroth assembly technology system. It is driven via the Torx T50 recess into the central thread of the profile and creates a load-bearing, detachable connection.

- End-face profile connection with no visible add-on parts
- Torx T50 drive for high torque transmission
- Galvanized steel, ESD-capable
- For profiles with slot 10
