

Kettenschloss 1/2" x 5/16" ESD für Staurollenkette - Bosch Rexroth 3842530417

Item no. BRR-3842530417

Manufacturer Bosch Rexroth

Master link for joining the accumulation roller chain in the longitudinal transport of the Bosch Rexroth TS 2plus transfer system. ESD-capable thanks to PA 12 small parts protection, making it suitable for use in an EPA. Steel accumulation rollers, chain size 1/2" x 5/16".

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	China
Weight	0.0162 kg
Zolltarifnummer	73151900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The master link connects the ends of the accumulation roller chain in the longitudinal transport of the Bosch Rexroth TS 2plus transfer system, closing the chain into a continuous loop. It is intended for maintenance and assembly staff who shorten or replace the accumulation roller chain of a section.

- ESD-capable through PA 12 small parts protection, suitable for use in an EPA
- Steel accumulation rollers for sustained load in accumulation conveying
- Matched to the accumulation roller chain in size 1/2" x 5/16"
