

Stellungsabfrage für Weiche, VFplus 65/90 - Bosch Rexroth 3842535150

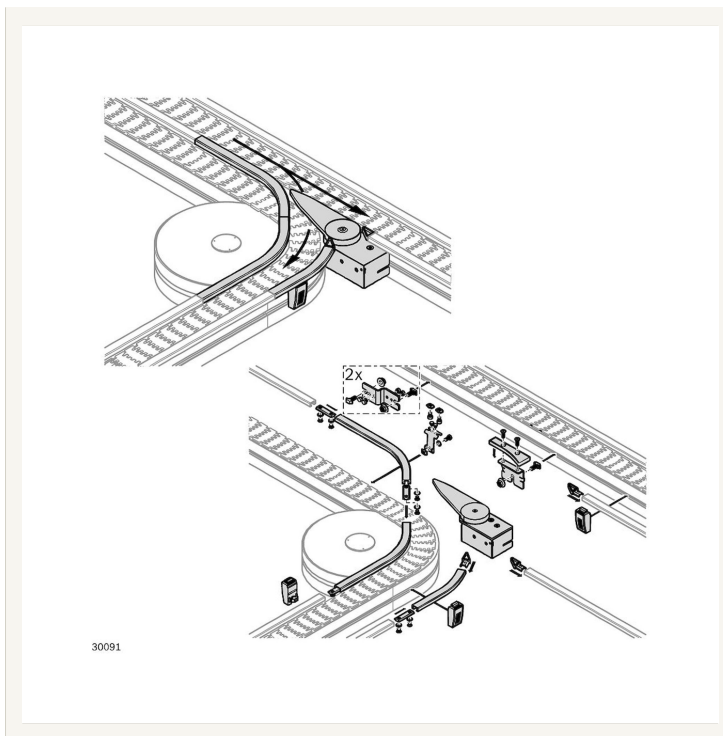

Item no. BRR-3842535150

Manufacturer Bosch Rexroth

Position sensor that reports the current setting of the diverter in the VFplus transfer system. It confirms which curving conveyor section is selected and supports reliable track changes for the workpiece pallet. Suitable for VFplus diverters in sizes 65 and 90.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.0099 kg
Zolltarifnummer	84313900

DESCRIPTION

This position sensor provides position feedback for the diverter in the Bosch Rexroth VFplus transfer system. It reports which conveyor section is currently selected at a curving diverter and supports the optional, tip-safe track change of the workpiece pallet across the section gap. The component is intended for system builders and maintenance staff in assembly and transfer technology.

- Position feedback of the diverter setting
- For optionally changing tracks between curving conveyor sections
- Suitable for VFplus diverters 45° and 90°, right and left
- Separately ordered accessory, not included in the diverter delivery
