

Schnellspanverbinder N10 0°, ESD, Stahl verzinkt - Bosch Rexroth 3842535458

Item no. BRR-3842535458

Manufacturer Bosch Rexroth

Quick connector for fast joining of slot 10 aluminium profiles. The ESD-capable galvanized steel version dissipates electrostatic charges and withstands a bending moment of 140 Nm. 0 ° mounting orientation with rectangular head shape.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Weight	0.056 kg
Zolltarifnummer	83024900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The N10 quick connector joins slot 10 aluminium profiles quickly and with minimal assembly effort. It is intended for design engineers and fitters in machine and plant construction who need stable profile connections with a defined load capacity.

- ESD-capable galvanized steel version dissipates electrostatic charges
- Withstands a bending moment of 140 Nm
- 0 ° mounting orientation with rectangular head shape
- Recommended accessories: anti-torsion element, radial compensation, drilling jig, cap

TECHNICAL DATA

Attribute	Value
Profile slot	10
Profile slot P1/P2	10 / 10
ESD	yes
Head shape	rectangular

Attribute	Value
Mounting orientation	0 °
Diameter D	17 mm
Bending moment 1	140 Nm
Material	Steel, galvanized
Packaging unit	10
Recommended accessories	Anti-torsion element, radial compensation, drilling jig, cap
Weight	0.056 kg
