DESCRIPTION

The Bosch Rexroth 8/10 inside bracket joins aluminum strut profiles with slot 8 and slot 10 at a right angle, seated inside the profile groove so the connection stays concealed from the outside. It suits machine, fixture and frame construction where a load-bearing and electrostatically dissipative corner joint is required.

- Concealed corner joint inside the profile groove
- ESD-capable thanks to galvanized cast steel
- Withstands a bending moment of 50 Nm
- Fastening material included in delivery
