DESCRIPTION

The LF20S/C guide bearing is a load-bearing component of the Bosch Rexroth LF20S roller guide, intended for design engineers and maintenance teams in machine and fixture construction. It supports the linear guide cam roller and transfers the load into the aluminium profile.

- Die-cast aluminium housing for a favourable balance of weight and rigidity
- Steel cam roller, hardened and polished, for high load capacity and smooth running
- Mounts via profile slot 10, fastening material included
- Supplied as a packaging unit of 2 pieces

Note: the lubricating felts are ungreased; greasing is carried out according to the assembly instructions.

TECHNICAL DATA

Profile slot	10
Housing	Die-cast aluminium
Cam roller	Steel, hardened, polished
Fastening material	4x cylinder head screw DIN7984-M8x40, 4x sliding block groove 10 M8, 4x centering bolt D10/5
Scope of delivery	incl. fastening material (FS)

Packaging unit	2 pieces
Weight	1.35 kg
