### DESCRIPTION

The Bosch Rexroth edge protector S5 is an anodized aluminum profile for reinforcing frameless surface elements on sliding doors. It receives the edge of the surface element and protects it over the long term. Intended for design engineers and fitters in jig and equipment construction.

- Reinforces and protects the edges of frameless surface elements
- Anodized surface for durable corrosion and wear resistance
- Profile thickness 5 mm, supplied as a 3000 mm standard length in packs of 10
