

Hammermutter 6 M4, ESD, Edelstahl - Bosch Rexroth 3842536599

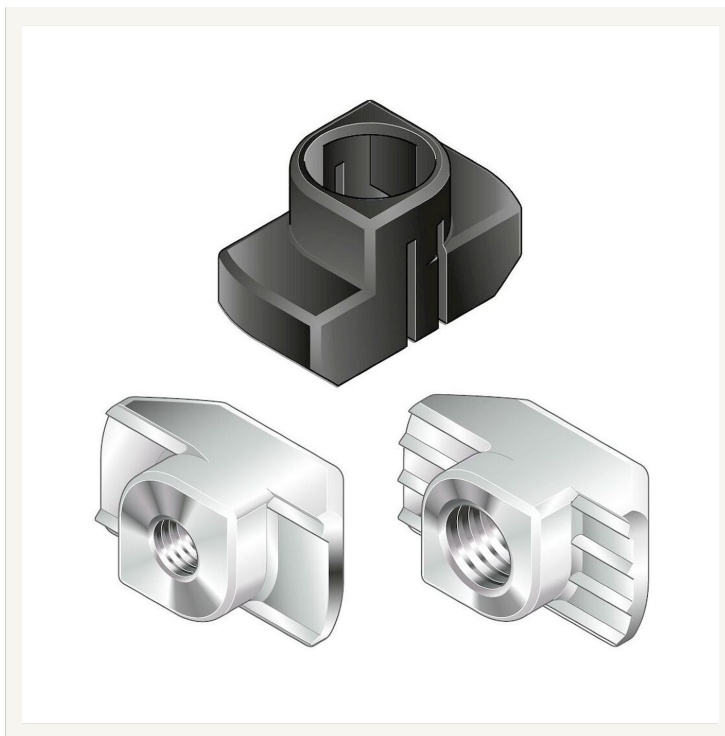

Item no. BRR-3842536599

Manufacturer Bosch Rexroth

T-nut for profile slot 6 with M4 thread in an ESD design made of stainless steel. It is inserted into the slot of aluminium profiles and provides bolted connections that remain adjustable and removable. Suitable for ESD-protected areas; an insulating cap is required as an accessory.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	China
Weight	0.001 kg
Zolltarifnummer	73181639

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The T-nut 6 M4 from Bosch Rexroth is used to fasten components in profile slot 6 of aluminium profiles. It is placed into the slot and turned by 90 degrees, creating bolted connections that can be repositioned and released later. The ESD design in stainless steel is suitable for use in electrostatically protected work areas.

- can be inserted into profile slot 6 after assembly
- ESD-capable, made of stainless steel
- groove retention up to 1700 N

TECHNICAL DATA

Profile slot	6
ESD	yes
Thread size	M4
Groove retention (Fmax)	1700 N
Material	Stainless steel
