DESCRIPTION

This swivel-in T-slot nut made of stainless steel is used to fasten components in aluminium profiles with slot 6. It is inserted into the profile groove and swivelled in by 90 degrees, so later assembly is possible without access through the profile end. Its two M4 threads provide a secure connection for the profile assembly.

- Two M4 threads for flexible bolting
- Stainless steel for high corrosion resistance
- Swivel-in for retrofitting without dismantling the profile
