

Gelenkfuß-Spindel M12, L145, ESD, Stahl verzinkt - Bosch Rexroth 3842537224

Item no. BRR-3842537224

Manufacturer Bosch Rexroth

Threaded M12 spindle for the modular leveling feet from Bosch Rexroth. It connects the foot to the profile and provides 80 mm of height adjustment. ESD-capable and made of galvanized steel, rated up to 20000 N.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
Length	145 mm
Weight	0.122 kg
Zolltarifnummer	73182900

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The M12 threaded spindle is a basic element of the modular leveling foot system from Bosch Rexroth. It links the leveling foot to the aluminum profile and is used to level and height-adjust frames, machine bases and workstations.

- ESD-capable for applications with discharge requirements
- 80 mm adjustment range for precise alignment
- High load capacity up to 20000 N per foot
- Galvanized steel for corrosion protection

The bearing ring is required as an accessory for assembly.
