

Antriebsbausatz BS 1 für Kurve KE 1/O-90, ESD - Bosch Rexroth 3842537619

Item no. BRR-3842537619

Manufacturer Bosch Rexroth

The Drive Kit BS 1 adds an extra drive to the KE 1/O-90 90° curve for reliable transport of the WT 1/P workpiece pallets. The drive is provided by a Belt section BS 1/T at the curve output or the Return unit UM 1. A round belt serves as the conveyor medium and is suitable for use in an EPA (ESD).

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Drive Kit BS 1 adds an extra drive to the KE 1/O-90 90° curve for reliable transport of the WT 1/P workpiece pallets at the curve infeed and outfeed. It is intended for machine builders and maintenance teams who want to retrofit a curve section or secure material flow in accumulation operation.

- Additional drive improves transport of the workpiece pallets at the start and end of the curve
- Drive provided by a Belt section BS 1/T at the curve output or the Return unit UM 1 of a section unit
- Round belt as conveyor medium, suitable for use in an EPA (ESD)
- Available for right-hand (KR = R) or left-hand (KR = L) curves

TECHNICAL DATA

Article number 3842537619

Type Drive Kit BS 1

Application Curve KE 1/O-90 (90° transport)

Workpiece pallet	WT 1/P
Driven by	Belt section BS 1/T or Return unit UM 1
Conveyor medium	Round belt (EPA-compatible)
Curve direction	right (R) or left (L)
Installation location AO	A, B, C, D
Max. section load in accumulation operation	3 kg
ESD	yes
Cleanroom class	ISO class 7
Dry room (rel. humidity)	<1 %
Reversing operation	not possible
Weight	1.2 kg

A separator ensures that no accumulation occurs on the curve or on the transfer belts.
