

Rücklaufsperre EL 425 mm, Eco Flow 500 - Bosch Rexroth 3842537900

Item no. BRR-3842537900

Manufacturer Bosch Rexroth

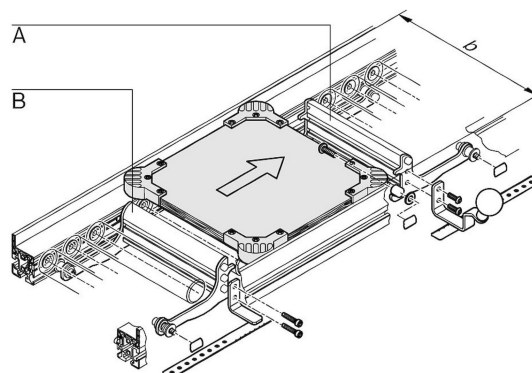

The return stop prevents workpiece pallets from running back against the conveying direction on the Eco Flow 500 transfer system. It has a roller length (EL) of 425 mm and is supplied pre-assembled with fastening material included. For a defined stopping action, use workpiece pallets with corner pieces.

TECHNICAL DATA

Country of Manufacture **Germany**

Weight **1.59 kg**

Zolltarifnummer **84313900**

DESCRIPTION

The return stop is a functional module for the Bosch Rexroth Eco Flow 500 transfer system. It prevents workpiece pallets from running back against the conveying direction and thus keeps material flow orderly on assembly and linking lines.

- Prevents workpiece pallets from running back on the roller section
- Delivered pre-assembled as components, fastening material included
- Roller length EL 425 mm matched to the track width of the Eco Flow 500

For a defined stopping action, Bosch Rexroth recommends using workpiece pallets with corner pieces.
