

Förderrolle D32 ESD, Polyamid rot - Bosch Rexroth 3842537960

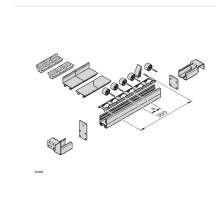

Item no. BRR-3842537960 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842537960

ESD idle roller D32 made of polyamide for the manual Lean conveyor systems by Bosch Rexroth. It supports the transported goods in gravity and flow racks for smooth material flow while protecting electrostatically sensitive parts. Rated up to 120 N per roller.

TECHNICAL DATA

Article authenticity	Original product
Colour	Red
Condition of article	New
Country of Manufacture	Italy
ESD-Ausführung	ESD (antistatic)
Weight	0.01187 kg
Zolltarifnummer	39174000

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The D32 idle roller is an ESD-capable support roller for the manual Lean conveyor systems by Bosch Rexroth. It carries the transported goods along gravity and flow sections and provides smooth, quiet material flow at assembly workstations.

- Electrostatically dissipative (ESD) to protect sensitive components
- Roller body in polyamide (PA) for low weight and quiet running
- Rated up to 120 N per roller

Technical data

Diameter	32 mm (D32)
ESD	yes

Color Red
Material PA (polyamide)
Force (Fmax) 120 N
Weight 0.01187 kg
Packaging unit 100 pieces
