ESD safe

DESCRIPTION

The 30x30 end connector in the designLINE version is used for end-to-end connections of 30x30 aluminum profiles. The special silver paint in white aluminum (RAL 9006) provides a high-quality, uniform look for frame and rack construction. Suitable for ESD applications.

- End-to-end profile connection with no visible external fastening
- designLINE finish in white aluminum (RAL 9006)
- ESD-capable for electrostatically protected areas
- Supplied as a set including fastening material

Profile preparation note: for 30x30, an M8 thread must be cut in the profile core.
