DESCRIPTION

This diecast zinc base plate is the floor-side component of the Bosch Rexroth leveling feet system and compensates floor irregularities up to 10 degrees. It combines with a leveling spindle and bolts directly to the floor through the central hole. Intended for designers and assemblers building aluminium profile structures.

- powder-coated surface in black
- for profiles with slot 8 and 10
- rated to 30000 N
- screw hole for direct floor fixing
- modular system, freely combinable with spindles
