## DESCRIPTION

The T-slot bar 6 is a continuous, cut-to-length sliding block for aluminium profiles with profile slot 6. It is intended for designers and assembly staff who need fixing points at a freely selectable position along the profile.

- Continuous bar for cutting to the required length
- Inserted into the profile groove and fixed with a spring
- Made of zinc-plated steel for durable load capacity

A spring is required as an accessory to secure the bar in the groove.
