Country of Manufacture	Sweden
Lenght	3000 mm
Weight	1.8 kg
Zolltarifnummer	39162000

STANDARDS & COMPLIANCE

ESD safe ISO 10642

DESCRIPTION

The Bosch Rexroth 3842543372 hinge profile is used to build hinges on aluminum profiles in sizes 40, 45 and 50. It suits doors with profile frames or doors made of solid surface elements and can open to the right or left.

- Assembly as a removable or non-removable hinge
- Opening to the right and left, fitted on the outside or inside
- Centering slots act as a drill guide for the mounting bores
- ESD-capable, anodized aluminum surface
- Required finishing: cut the hinge halves to length and drill the fixing holes
