DESCRIPTION

This mounting kit fastens the ID 200/-... read/write head in the longitudinal conveyor of Bosch Rexroth identification systems. It is intended for machine builders and maintenance teams installing the ID 200 identification system on the section profile.

- Centering lugs for pre-positioning and fast assembly
- Mounted directly on the section profile in slot 10
- incl. fastening material and a 45x90 bracket for reinforcement as needed

Note: sensor and identification systems ID 40 and ID 200...-LF use the same frequency range. To prevent mutual interference, keep a minimum distance of 200 mm.

Technical data

Type	Mounting kit for identification system ID 200, longitudinal conveyor
Function	Fastening of the read/write head ID 200/-...
Mounting location	on the section profile
Profile slot	10
Preferred values	455, 650, 845 mm
Delivery condition	not assembled
Scope of delivery	fastening material, 45x90 bracket for reinforcement
Required accessories	Communication Module ID 200/C-..., Antenna ID 200/A-..., Mobile data tag 3/2K-H, Cable
Weight	0.63 kg
