DESCRIPTION

This Bosch Rexroth protective cover closes the transition point between two ST 5/OC conveyor units with different roller spacings in the TS 5 transfer system. It protects the area at the section center and is intended for system integrators and maintenance teams in industrial material flow.

- Cover for the transition between roller spacings p1/p2 of 130 and 195 mm
- Robust design in galvanized steel
- Each cover requires 4 spring elements for mounting (article number 3842545214, ordered separately)
