DESCRIPTION

The accumulation roller chain D11 is the conveyor chain for the VarioFlow plus chain conveyor system in size 65. It is intended for machine builders and maintenance teams who convey workpiece pallets and products and need gentle accumulation, where the product stops while the chain keeps running underneath.

- Driver rollers for low-friction accumulation transport
- supplied fully assembled, incl. chain pin and jointed bolts
- chain pin made of non-rusting steel 1.4301
- chain links and rollers made of wear-resistant POM
