### DESCRIPTION

The VarioFlow plus plain washer is a flat shim and spacer washer in stainless spring steel for the Bosch Rexroth VarioFlow plus chain conveyor system. It is used at the track supports of the aluminium system to compensate for height differences and tolerances during assembly. Intended for system integrators and maintenance staff in material flow applications.

- 3 mm material thickness for precise shimming and height adjustment
- Stainless spring steel for lasting performance
- Suits track support sizes 65, 90 and 120 mm
- Supplied in packs of 100
