DESCRIPTION

The vertical curve is a pre-assembled deflection element for the VarioFlow plus chain conveyor system in size 160. It guides the chain through a 7.5° deflection angle in the vertical plane and is used within the aluminum system to overcome differences in height along the conveyor line.

- Profile made of anodized aluminum for low weight and corrosion protection
- Supplied fully assembled, including fastening material for mounting to the AL section profile
- Support profile made of non-rusting steel 1.4301 from size 160
