## DESCRIPTION

The vertical curve 240+ is an incline element for the VarioFlow plus chain conveyor system in the STS stainless steel design. It deflects the conveyor chain by 15° in the vertical plane and suits corrosion- and hygiene-sensitive applications in the food, pharmaceutical and packaging industries.

- Profile, connectors and support profile from size 160 made of non-rusting steel 1.4301
- Supplied fully assembled and ready to install
- Includes fastening material for mounting to STS section profiles

Required accessory: slide rail (length calculation needed). The effective sliding rail length applies with the support profile.
