STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Cover Cap D30 ESD closes the open end faces of cubic connectors in the D30 profile system, giving a clean and touch-safe appearance. It is intended for use in ESD-protected areas such as workstations and equipment handling sensitive electronic components.

- Conceals the open connector face and improves appearance
- ESD-capable for dissipation of electrostatic charges
- Made of polypropylene, robust and lightweight
- Supplied in a packaging unit of 100 pieces
