DESCRIPTION

The Cover Cap 30x60 ESD closes the open ends of Bosch Rexroth aluminium profiles with a 30x60 mm cross-section and profile slot 8. Made from ESD-suitable polypropylene (PP) in black, it keeps swarf and contaminants out of the profile slot - a practical requirement in assembly and test environments subject to ESD controls per IEC 61340.

- 30x60 mm cross-section: exact fit for Bosch Rexroth profiles with 30 mm modular dimension
- Profile slot 8: compatible with the standard slot 8 of the 30-series profile range
- ESD-suitable PP: dissipative material for use in electrostatic protected areas (EPA)
- 0.00465 kg per piece: tool-free installation, no additional hardware needed
- Packaging unit of 20: cost-effective stocking for serial assembly
