DESCRIPTION

The 3842548804 cover cap seals exposed end faces of Bosch Rexroth aluminum profiles with a 45x90 mm cross-section and profile slot 10. Made from polypropylene (PP) in signal gray, it delivers a clean, uniform finish on assembly frames and machine guarding wherever profile ends remain visible.

- Precise fit: bore diameters D12.5 and D17 allow fastened or unfastened installation.
- 45 mm modular dimension: directly compatible with the Bosch Rexroth 45 mm grid system.
- Signal gray finish: consistent appearance across standard machine and frame colors.
- Lightweight PP construction: 0.01372 kg per cap adds negligible mass to the assembly.
- Pack of 20: cost-effective for series production and project procurement.
