DESCRIPTION

This cover cap closes unused connector positions on 20x20 gusset brackets, preventing dust, swarf and particle ingress in aluminum profile assemblies. Compatible with all size-20 profile constructions built on the Bosch Rexroth assembly system.

- Protects open connector positions against dust, chips and mechanical damage
- PP material - lightweight, dimensionally stable and sufficiently flexible for secure snap-fit installation
- Signal gray color - matched to the standard color scheme of the profile system
- Packaging unit of 100 pieces for cost-effective stock management
