## STANDARDS & COMPLIANCE

ESD safe

## DESCRIPTION

The 30x60 ESD cover cap closes the fixing openings of gusset connectors in the Bosch Rexroth aluminium profile assembly system. Made from polypropylene (PP) with ESD-dissipative properties, it prevents electrostatic charge build-up and is suited to ESD-protected production and assembly environments.

- **ESD-compliant:** PP material with electrostatic protection properties for sensitive assembly and production areas
- **Clean finish:** Seals open fixing holes on 30x60 gusset connectors, keeping surfaces free of dirt and debris
- **Black colour:** Neutral appearance, consistent with standard components of the Rexroth profile system
- **Economical pack size:** 20 pieces per packaging unit for efficient storage and assembly workflows
